

WHY SHOULD ORGANISATIONS CONSIDER IT ASSET DISPOSAL SERVICES (ITAD)

1. Data Security: Freedomtech ITAD services ensure proper data destruction and asset disposal, minimising the risk of data breaches and unauthorised access to sensitive information. Through secure data wiping or physical destruction techniques, Freedomtech offer peace of mind by ensuring data confidentiality.

2. Compliance with Regulations: Businesses are legally required to follow specific regulations when disposing of electronic devices, especially those containing sensitive data (e.g., GDPR, HIPAA, FACTA). Our ITAD services help companies comply with these regulations, reducing the risk of penalties and legal consequences.

3. Environmental Responsibility: Freedomtech services focus on responsible e-waste management. We assess, refurbish, and resell viable assets, reducing electronic waste and promoting a circular economy. By properly recycling and disposing of electronic devices, we help minimise the environmental impact of technology consumption.

4. Asset Recovery: Freedomtech ITAD services assist in maximising the value of retired IT assets. We facilitate asset tracking, valuation, and remarketing. By identifying assets suitable for resale, companies can recover a portion of their investment, which can be reinvested in newer technologies or other business initiatives.

6. Risk Reduction: Holding onto outdated or unused IT assets can lead to increased security risks, as these devices may no longer receive security patches or updates. By promptly disposing of such assets through our ITAD services, businesses can mitigate the risk of outdated technology vulnerabilities.

7. Professional Expertise: Freedomtech have the experience and knowledge to handle IT asset disposition efficiently. We possess expertise in data security practices, legal compliance, and environmental standards. By partnering with us, our customers can benefit from our specialised knowledge and industry best practices.

Speak to one of our ITAD experts today, sales@freedomtech.solutions, and they will call you back within an hour.
