

FOSSPHORUS ENHANCES GLOBAL SERVICES WITH FREEDOMTECH

End-to-end infrastructure services to validate, deploy and scale with confidence.

GLOBAL SCOPE
Operations across
North America, UK
& India

RAPID VALIDATION
PoC completed in
just 3 weeks

ZERO DISRUPTION
Seamless migration
between data centres

BUILT TO SCALE
Future-ready
infrastructure for
continued growth

BUSINESS CHALLENGE

Fossphorus, a global brand strategy consultancy, needed to validate hardware interoperability and feasibility across multiple markets. They required a partner to rapidly test, deploy and manage critical infrastructure while minimising risk and downtime.

1. Test hardware performance across multiple geographies
2. Deliver flexible, secure infrastructure for future growth
3. Manage vendor engagement and multi-site complexity
4. Ensure continuity and efficiency during transition
5. Execute PoC at scale and prepare for long-term deployment

OUR SOLUTION

Freedomtech delivered end-to-end services to power a successful Proof of Concept and long-term infrastructure implementation.

1. INNOVATION LAB TESTING

Used our state-of-the-art innovation lab to test hardware interoperability and feasibility—cutting PoC timelines from 3 months to just 3 weeks.

2. HARDWARE DESIGN & CONFIGURATION

Designed and configured the required hardware for performance, compatibility, resilience and compliance with Fossphorus' operational requirements.

3. INFRASTRUCTURE DEPLOYMENT

Deployed a full technology stack including HPE servers, Cisco switches & routers, F5 load balancers, network connectivity and monitoring solutions.

4. MANAGED MIGRATION

Oversaw the safe relocation of hardware between data centres, minimising

5. 24/7 GLOBAL SUPPORT

Dedicated support contract ensuring continuous monitoring, incident resolution and proactive maintenance.

RESULTS THAT POWER GROWTH

66%

FASTER PoC COMPLETION

Cut PoC timeline from 3 months to just 3 weeks.

100%

SUCCESSFUL MIGRATION

Zero downtime during hardware relocation and transition.

35%

PERFORMANCE UPLIFT

Optimised infrastructure driving better reliability and speed.

24/7

GLOBAL SUPPORT

Continuous monitoring and rapid incident resolution.

FUTURE-READY INFRASTRUCTURE

Scalable, secure and built to support global expansion.

"Freedomtech were instrumental in accelerating our PoC, managing complex migrations and delivering a robust infrastructure foundation. Their expertise and support give us the confidence to scale our global operations."
