

THE ADVANTAGES OF CHOOSING FREEDOMTECH FOR IP LEASING

BUSINESS CHALLENGE

The depletion of global IPv4 addresses has had a significant impact on companies across various industries. While some opt to buy the necessary resources, many are discovering the numerous benefits of IP leasing. Freedomtech has established itself as a top choice for customers seeking IP leasing solutions.

SOLUTION

With its continuous expansion and growing global customer base, Freedomtech offers access to a sizable pool of clean IP addresses available for lease. Presently, Freedomtech has over 200,000 IP addresses at its disposal, ensuring the delivery of premium services to clients worldwide. Freedomtech stands out by tailoring leases to meet each customer's exact specifications, enabling Freedomtech to provide personalised services that cater to individual client needs effectively.

A key priority for Freedomtech's customers is swift service delivery. Freedomtech excels in this aspect by providing and activating subnets within minutes, meeting the urgent requirements of its customers.

In addition to its speed and ease of transaction, Freedomtech offers customers a user-friendly platform for leasing and managing subnets, allowing for a highly detailed and customised level of control. Alongside quick and straightforward IP leasing, the company emphasises professional Acceptable Use Policy (AUP) and IP address management, as well as geolocation services that enhance its operational capabilities.

RESULT
