

JPS MEDICAL TRUSTS FREEDOMTECH TO DELIVER AND MANAGE THEIR TECHNOLOGY STACK

JPS Medical a renowned Australian company with operations in Singapore, Hong Kong, and India, is a key player in sourcing highly skilled Consultants and Surgeons worldwide.

BUSINESS CHALLENGE

Due to JPS expansion, there arose an immediate need to establish infrastructure in their Hong Kong data centre. JPS entrusted Freedomtech with the design, configuration, and implementation of their technology stack.

SOLUTION

Freedomtech took charge of deploying HP blade servers, including Cisco switches and Firewalls, as integral components of the solution. The entire infrastructure environment was then comprehensively managed 24/7 by Freedomtech's help desk under a dedicated support contract.

RESULT

- 🕒 Freedomtech supported JPS on their global expansion initiatives.
- 📉 An annual reduction of 15% in overall infrastructure costs was realised.
- 🕒 Through Freedomtech's hardware interoperability testing, the solution was successfully deployed within the given timeframes.
