

SMART HANDS SOLUTIONS

TRUSTED PARTNER OF YOUR NETWORK INFRASTRUCTURE

Specialising in managing network infrastructure and hardware in Data Centres across the globe, Freedomtech Solutions offers a comprehensive suite of tailored Remote Hands solutions to help you drive services availability up and network management cost down.

END TO END SOLUTIONS

We know how challenging it can be not to have a trusted Remote Hands partner you can rely on to manage your network infrastructure.

We offer a comprehensive suite of Remote Hands services, covering all aspects of network management. Our teams can assist you with any network installation, modification and ongoing maintenance requirements.

GLOBAL CAPABILITIES

Our teams span all major Internet Exchanges, where we can support your network. Our commitment to you is that we will deliver the same high quality of services, consistently across all our locations. So wherever you are working with Freedomtech Solutions, you can trust your network will be in expert and reliable hands.
